

Product Information – Acne

B-Kleer™ 10 Lotion

Indications

- Use of mild to moderate acne.
- Gently exfoliates encrustation and acne pustules.
- Penetrates pores to eliminate most acne pimples.
- Reduces the severity of acne blemishes.
- Help prevent new acne blemishes from forming.
- Controls oiliness and loosens dirt and oils trapped in pores.

Key Features

- Powerful exfoliating and stimulating properties of Glycolic Acid.
- 10% Glycolic Acid (AHA) for exfoliation, deep pore cleansing and to improve skin tone and texture.
- Excellent for day and night use.
- Creates rapid exfoliation of acne pustules.
- Should show improved skin within three to four weeks.
- Improves tone, texture and helps with scarring
- Will not dry the skin if used as prescribed.
- Works well under makeup.
- Developed for mild to moderate acne.

Directions

- Cleanse the face with B-Kleer™ Antiseptic Wash, B-Prox 2.5, or B-Prox 10 Cleansing Lotion.
- Pat skin dry. Lightly and evenly cover the affected area.
- Do not over-apply. Pat excess with tissue.
- Start with 1 application daily and then gradually increase to 2-3 times daily if needed or as directed by a physician.
- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
- *Note: This will not relieve problems associated with acne. It is simply an anti-inflammatory effect to help with redness or irritation from the acne.*

Warning

- For external use only. Do not apply to open skin.
- Keep out of reach of small children.
- Not recommended for use during pregnancy.
- Do not use while on Accutane®.
- Avoid direct contact with eyes and mucous membranes.
- Mild or transient tingling may occur if you have sensitive skin.
- If you wear contacts, wash hands thoroughly prior to touching lenses.
- If irritation develops, discontinue use.
- Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.

Product Information – Acne

B-Kleer™ Acne Gel (OTC Drug)

Regulatory Status

- FDA Monograph: Maximum strength acne treatment gel specially designed to exfoliate skin and reduce oiliness as it treats acne and prevents new blemishes.

Indications

- A topical medication for the treatment of moderate to advanced acne.
- Gently exfoliates encrustation and acne pustules and penetrates pores to eliminate most acne pimples while it loosens dirt and oils trapped in pores.
- Reduces the severity of acne blemishes and helps prevent new acne blemishes from forming.

Key Features

- Combines the exfoliating and stimulating properties of Glycolic Acid with the desquamation and anti-bacterial features of Salicylic Acid.
- 6% Glycolic Acid (AHA) for exfoliation, deep pore cleansing and to improve skin tone and texture; and 2% Active Salicylic Acid (BHA) to help exfoliate and dry acne pustules.
- Made with three extracts to soothe the skin from any possible irritation.
- Vitamin E is an antioxidant and preservative; Vitamin A offers skin healing properties and improves skin thickness for fuller body.
- Excellent for spot treatment of acne day or night and creates rapid exfoliation of acne pustules.
- Should show improved skin within three to four weeks with tone and texture.
- Will not overly dry the skin and works well under makeup. May be used twice daily.

Directions

- Cleanse the face with Neutral Cleansing Bar, B-Kleer™ Antiseptic Wash, B-Prox 2.5, or B-Prox 10 Cleansing Lotion, pat skin dry.
- Lightly and evenly cover the affected area with a thin layer of B-Kleer™ Acne Gel 1-3 times daily. Do not over-apply. Pat excess with tissue.
- Start with 1 application daily and then gradually increase to 2-3 times daily if needed or as directed by a physician.
- If dryness or peeling occurs, reduce application to once a day or every other day.
- *Note: This will not relieve problems associated with acne. It is simply an anti-inflammatory effect to help with redness or irritation from the acne.*

Warning

- For external uses only and do not apply to open skin. If irritation develops, discontinue use.
- Keep out of reach of small children. Do not use if pregnant.
- Do not use while on Accutane®. Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor.
- Avoid direct contact with eyes and mucous membranes.
- Mild or transient tingling may occur if you have sensitive skin.
- If you wear contacts, wash hands thoroughly prior to touching lenses.

Product Information – Acne

B-Kleer™ Acne Lotion (OTC Drug)

Regulatory Status

- FDA Monograph: Maximum strength acne treatment lotion specially designed to exfoliate skin and reduce oiliness as it treats acne and prevents new blemishes.

Indications

- Use for the treatment of moderate to advanced acne.
- Medication for the treatment of Acne blemishes.
- Clears up existing Acne pustules and pimples and allows the skin to heal.
- This will keep the skin clear of new Acne blemishes.

Key Features

- Maximum strength Salicylic Acid that can be used in a medicated formulation.
- Dries and clears Acne blemishes, Acne pimples, blackheads and whiteheads.
- Oil of Peppermint is antibacterial and leaves the skin feeling cool and fresh.
- Loaded with medicated Acne treatments, exfoliates, and nourishment to keep the skin from becoming too dry or irritated.
- Light, elegant lotion that works extremely well with makeup. May use 24/7.
- Contains 10% Glycolic Acid (non-buffered) to deliver actives deeper into the tissue and to help stimulate the exfoliation cycle

Directions

- Shake well before using.
- Cleanse the skin thoroughly with B-Kleer™ Wash before applying B-Kleer™ Acne Lotion.
- Cover the entire affected area with a thin layer.
- Start with one application daily, preferably at bedtime, and then gradually increase to two or three times daily if needed or as directed by a dermatologist.
- If dryness or peeling occurs, reduce application to once a day or every other day.
- Leave on all day or overnight for maximum effectiveness. If using at least twice a day, rinse face and cleanse prior to reapplying.
- *Sensitivity test for New Users:* Apply product sparingly to one or two small affected areas during the first three days. If no discomfort occurs, follow the directions above.

Warning

- For external use only. Keep out of the reach of small children.
- In case of accidental ingestion, contact a poison control center immediately.
- Avoid contact with eyes and mucous membranes.
- Using other topical Acne medications at the same time or immediately following use of this product may increase dryness, or irritation of the skin. If this occurs, only one medication should be used unless otherwise directed by a dermatologist.
- Pregnant or Breast feeding: Consult a dermatologist or your OB/GYN prior to use. This formulation should not pose a medical threat but can be irritating to the skin.
- DO NOT USE if on Accutane®. You must be off Accutane® for at least six months before you can begin to use this product should symptoms still exist.
- NOT RECOMMEND as A SPOT TREATMENT. Acne can spread easily. By stopping a blemish and not treating the surrounding area(s), new blemishes can appear.

Product Information – Acne

B-Kleer™ BP 2.5 Acne Crème (OTC Drug)

Regulatory Status

- FDA Monograph: An antibacterial treatment to help control and moderate Acne and Acne pustules.

Indications

- For the antibacterial treatment for all grades of acne.
- Formulated to kill bacteria, dry acne pustules, cleanse pores, remove excess oils and slough dead cells. Exfoliation will loosen impacted pores.
- To disinfect and control bacteria to keep Acne under control.

Key Features

- Dries acne blemishes, acne pimples, blackheads and whiteheads.
- Aloe Vera Gel keeps the skin calm and minimizes irritation.
- Works well with makeup.
- May use 24/7.
- Developed for mild to moderate acne problems.

Directions

- Start with one application daily, preferably at bedtime. Allow two weeks for the skin to become comfortable with product. Gradually increase to twice daily if needed or as directed by a dermatologist.
- Shake well before using.
- Cleanse the skin thoroughly with B-Kleer™ Wash before applying crème. Apply a pea size drop to each side of the face and the forehead. Gently cover the entire affected areas with a thin layer. Do not rub into the skin.
- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
- Leave on all day or overnight for maximum effectiveness. If using at least twice a day, rinse face and cleanse prior to reapplying.
- *Daytime:* Same as bedtime with the addition of sunscreen. Allow to dry. Apply sunscreen to protect the skin from UV radiation damage and the risk of photosensitivity.
- Sensitivity test for New Users: Apply product sparingly to one or two small affected areas during the first three days. If no discomfort occurs, follow the directions above.

Warning

- For external use only.
- Keep out of reach of small children.
- In cases of accidental ingestion, contact the poison control center immediately.
- Avoid contact with eyes and mucous membranes.
- Using other topical acne medications at the same time or immediately following use may increase dryness, or irritation. If irritation or sensitivity develops, discontinue use of this product for three days and try again. If this occurs, consult your dermatologist.
- May bleach fabrics.
- PREGNANT OR BREAST FEEDING. Consult a dermatologist or your OB/GYN prior to use.
- Do not use if you are on Accutane® for six months following Accutane® treatments.
- Not recommended for SPOT TREATMENT.
