

AGERA® Advanced Eye Lift

Formulated with an advanced silicone crosspolymer/elastomer technology, this lightweight eye fix provides an unusual silkiness to skin with no heavy afterfeel. The proprietary lipopeptide Prolifersyn® works to provide collagen matrix stimulation, which is known to aid in the repair of damaged skin tissue, without irritation. An additional benefit is the addition of Argireline®, which helps relax the delicate area around the eyes, reducing the appearance of fine lines and wrinkles.

PRODUCT BENEFITS

- Recommended for all skin types
- Contains unique silicone elastomers that help mask wrinkles for a smoother appearance
- Contains Tocopheryl Acetate (Vitamin E)
- 100% bioactive
- Provides powerful moisturizers and antioxidants
- Contains Argireline®, known for its muscle-relaxing properties
- Helps stimulate the skin by hydrating with oxygen

AGERA® Phospholipid Eye Gel

This lightweight, soothing eye gel is packed with phospholipids, powerful moisturizers, and Vitamin E to gently moisturize, firm, and plump the delicate skin surrounding the eyes. Its antioxidant properties help to destroy the free radicals that can lead to wrinkles and sagging. The result is the appearance of smoother, firmer, younger-looking skin. And, because it has a nongreasy formula, it's perfect as a daytime treatment or under makeup.

PRODUCT BENEFITS

- Nongreasy formula works as a base under makeup
- Helps firm and plump the skin
- Employs lipogel-delivery technology for better absorption of moisturizers
- Contains antioxidants to help prevent future eye damage
