

Pro-C® Elite Serum with Ferulic Acid & Vitamins A, C & E

Indications

- An antioxidant to assist in the repair of sun damaged skin
- A skin protectant from environmental stress
- Topical treatment scientifically known to fight inflammation
- Improves tone and softness of the skin's appearance
- To enhance the performance of vitamins and antioxidants in the skin especially Vitamin C

Key Features

- Contains 20% concentration of Vitamin C
- Provides more Vitamin C than normal healthy skin typically contains
- Ingredient cocktail with Vitamins A, C & E, which have been long proven to help combat anti-aging
- Need very little product to see results. Use sparingly on the face, around the eyes, the delicate neck and lip line areas. Less is more!
- Our Ferulic Acid is produced from rice bran
- Dramatically more effective than straight water-or-lipid soluble Vitamin C.
- Ferulic Acid has been medically found to work as a skin tumor inhibitor
- Natural antioxidant with proven medical benefits
- Improves skin tone, softness and color within days
- Vitamin C is the stabilizing ingredient during the synthesis process for collagen Critically improved shelf life since Ferulic Acid helps keep Vitamin C stable
- This formula gives a 24 hour reservoir effect in the skin with Vitamin C and 48 to 72 hours on other key components
- May be used simultaneously with exfoliators such as Glycolic Acid and Retinol-based products
- Contains Polypeptides which are amino acid building blocks to help the skin
- No stinging or irritation when applied
- Recommended use is once daily but may be used twice daily for more severe problems
- Lipid and water soluble components
- Text for box insert / PRO-C® ELITE WITH FERULIC
- Photo-protection activity in solar-simulated irradiation more than doubled with this formulation of Vitamin C (20%), 1% Vitamin E and 0.8% Ferulic Acid giving a 4-fold to 8-fold improvement
- Two yeast extracts deliver significant benefits to the skin by adding Hyaluronic Acid and Collagen
- Can be used on acne to help inflammation
- May be used when pregnant
- Antioxidants reduce free-radical damage / reactive oxygen species (ROS)
- Non-comedogenic
- Fragrance-free
- Non-toxic

Continued

A-CUTE DERM

Directions

Gently cleanse your face and neck. Allow the skin to dry. Apply 1 pump lightly and evenly on the entire face. Use a separate single pump of product if applying to the neck area and another for the décolleté area. Do not massage or rub into the skin. Allow to dry. If not dry within 1 minute dab off excess with a tissue. Follow with your anti-aging exfoliator treatment. Then apply our Pro-Tect® sunscreen for daytime use. Apply up to 2 times daily. Maximum results should occur within 6 weeks of daily use...then continue as part of your daily maintenance.

If you have had sun damage use this product as your daily and bedtime moisturizer. It will be applied after you cleanse and before your treatment, i.e. Vitamin A Polypeptide, or Glycolic Acid, or our Retinol-based Tri Complex Serum.

Caution

- For external use only
- Keep out of reach of small children
- Avoid contact with eyes
- If irritation develops, discontinue use for 3 days. Then start again, once daily, using less product
- Do not massage or rub into the skin

Product Information – Antioxidants & Vitamins

Pro-C® Moisture Max with Amino Acids

Indications

- To improve skin hydration with rich components.
- Antioxidant and amino acid activity in a multi-fruit acid cocktail.
- Fights free radical damage.
- To visibly improve fine lines and crow’s feet with immediate results.

Key Features

- A super hydrating serum that creates a matrix to eliminate surface wrinkles and offers excellent nutrients to help dry and environmentally damaged areas.
- Loaded with natural multi-fruit acids to offer moisturizing and exfoliating benefits without irritation.
- Contains free radical scavengers (antioxidants) Vitamin C and Japanese Green Tea Extract.
- Includes L-Serine (Red Marine Algae), which is a significant amino acid that is active in structuring the skin’s natural moisturizing factor (NMF) to improve skin hydration and moisturizing capabilities.
- Contains two humectants, Glycerin and the super potent Sodium PCA.
- Soothing botanicals include Aloe Vera Gel and anti-irritant Kola Nut Extract.
- Contains Hydrolyzed Glycosaminoglycans (GAGS), which are materials found in the intracellular structure of the skin. They are part of the protein base more commonly known as the Mucopolysaccharides.
- 6% Vitamin C. 4% AHA.

Directions

- May be used by itself or in addition to your normal moisturizer.
- Cleanse and tone the skin.
- Apply a few drops to the fingertips, gently pat onto eye area, crow’s feet, and smile lines, entire face and décolletage areas.
- May be used on dry and environmentally damage areas on face and neck.
- Suggested use is twice daily.
- Fits in as your moisturizer when using our PROTOCOL chart.

Face	Apply one pea size drop for the face. Once daily will last 180 days for 1.0 oz bottle.					

Ingredients

Deionized Water, Glycolic (and) Lactic (and) Citric (and) Tartaric Acids derived from Passion Flower, Lemon, Grape, and Pineapple, Ascorbic Acid (Vitamin C), Aloe Vera (and) Hydrolyzed Glycosaminoglycans, Japanese Green Tea Extract, Red Marine Algae, Hydroxyethylcellulose, Kola Nut Extract, Sodium PCA, Glycerin, Propylene Glycol (and) Diazolidinyl Urea (and) Methylparaben, and Propylparaben.

Pro-C® Antioxidant Serum

Indications

- An antioxidant to repair damaged skin.
- A protectant from the elements.
- Topical treatment of inflammatory skin disease.
- Helps to soften and improve the skin’s appearance

Key Features

- 10% concentration.
- Stabilized Vitamin C ester.
- 30x more effective than ascorbic acid as a tumor inhibitor in lab animals.
- Skin feels smoother and softer in minutes.
- May be used with Glycolic Acid, Retin-A®, Renova® treatments, unlike Ascorbic Acid.
- Lipid-soluble.
- Natural antioxidant with proven medical benefits.
- Can be used on acne as anti-inflammatory agent.
- Remains in epidermis for days after application.
- Provides 20% more Vitamin C than healthy skin contains.
- May be used when pregnant.
- No stinging or irritation when applied.
- Contains bioactive transport ingredients to rapidly penetrate the skin’s surface.
- Improves skin appearance by diminishing fine lines.
- Partially repairs sun damaged skin. Excellent as a total body treatment for sun damage.
- Apply once daily. Additional usage may inhibit its potential and cause dryness.
- This product should be used to combat previous and/or excessive UV damage.
- Non-comedogenic.
- Convenient airless pump to inhibit oxidation.

Protocol

- Utilize your antioxidant during the day. The greatest amount of oxidative damage occurs during the day, mainly due to ultra violet radiation. This will help offer additional protection. Add this after cleansing and before your treatment for anti-aging, acne, sensitive skin, etc...). For optimum results, apply once daily. If applying to other areas of the body we recommend our 4 ounce bottle.

Directions

- Cleanse the skin thoroughly and allow to dry for five (5) minutes.
- Gently dab a thin, even layer of Pro-C™ Antioxidant Serum on affected face, neck and décolleté areas and allow to dry. If not dry within one (1) minute, dab off excess with a tissue.
- Your treatment (see Protocol above) can then be added as part of your normal daily maintenance routine.
- Apply sunscreen during the day to any and all exposed body parts. You should apply sunscreen at least 30 minutes prior to being out in the sun as sunscreens do not fully activate for this period of time to give you optimal protection from further damage.
- For additional information please feel free to contact us.

Caution

- For external use only.
- Keep out of reach of small children.
- Avoid contact with eyes.
- If irritation develops, discontinue use.

Item/Package Details

Tri-Complex 5 Serum

Indications

- To normalize skin functions, which are essential for epidermal cell development and maintenance.
- To prevent degenerative changes that takes place with the aging process.
- To achieve a synergistic effect in the skin.

Physiological Notes

- The human body cannot synthesize Vitamin A, so we must find a mean of getting it into the skin.
- Vitamin A is sensitive to UVA & UVB radiation; *it will cause a significant decrease in the skin's vitamin content.*
- Lab studies reveal that cells supplemented with Vitamin A can return to a normal stage, known as 'skin normalization'.
- It is believed that pre-cancerous squamous and basal cells normalize through a reaction of Vitamin A with the deoxyribonucleic acid (DNA) material within the cells.

Key Features

- 5% Retinol concentration. Retinol and Retinyl Palmitate does not irritate the skin like Retinoic Acid does.
- May be used in conjunction with Glycolic Acid and Antioxidants to nurse and regenerate skin.
- Vitamin A Complex Serum contains lipid-soluble ingredients, Antioxidants, Vitamins C and E, which provides improved stability of Vitamin A (Retinol) and allows it to penetrate the Stratum Corneum.
- No harsh side effects even at concentrations up to 10% as with Retinoic Acid.
- No harsh side effects when used with lipid-soluble Vitamin, as with Ascorbic Acid.
- Helps improve skin thickness and suppleness by assisting in the buildup of keratinocytes.
- Functions as a bio-regulator to keep skin looking youthful, improve skin elasticity and reverses sun damage.
- Squalane is a rich humectant to add moisture to the skin.
- Silicone base to give you rich, elegant and smooth feel prevents redness, flakiness and irritation.
- Light and easy to wear, works well under makeup. May be used on sensitive skin.

Directions

- May use twice daily. Apply two drops to the skin after proper cleansing.
- Gently massage and pat with fingertips until absorbed. Do not rub into skin.
- Daytime: After drying, follow with sunscreen. Bedtime: Add a moisturizer, if necessary.

Caution

- External use only. Avoid direct contact with the eyes.
- Keep out of reach of small children.
- If irritation lasts for more than two days, discontinue use for a few days and then try again.
- Wear UVB & UVA Broad-spectrum sunscreen when using serum during the day.
- Keep away from direct sunlight. Do not freeze or store near very cold areas.

Tri-Complex 10 Serum

Indications

- To normalize skin functions since it is essential for normal epidermal cell development and maintenance.
- To prevent degenerative changes which take place with the aging process.
- To achieve a synergistic effect in the skin.

Physiological Notes

- The human body cannot synthesize Vitamin A, so we must find a mean of getting it into the skin.
- Vitamin A is sensitive to UVA & UVB radiation; *it will cause a significant decrease in the skin's vitamin content.*
- Lab studies reveal that cells supplemented with Vitamin A can return to a normal stage, known as 'skin normalization'.
- It is believed that pre-cancerous squamous and basal cells normalize through a reaction of Vitamin A with the deoxyribonucleic acid (DNA) material within the cells.

Key Features

- Should be used as a step up treatment from Tri-Complex⁵ Serum for home.
- Stimulates epidermal cell development.
- Quickly driven into the skin after addition of a mask treatment, and accelerates antioxidant activity.
- Combination of Retinol with Retinyl Palmitate for stabilization.
- 3X the amount of Retinol needed to be fully active in the skin.

Directions

- May use twice daily. Apply several drops to the skin after proper cleansing.
- Gently massage and pat with fingertips until absorbed. Do not rub into skin.
- Daytime: After drying, follow with application of sunscreen. Bedtime: Add a moisturizer, if necessary.
- If using only Vitamin A, use the same protocol position as you have for Glycolic Acid.
- If using Glycolic acid and Vitamin A, use Glycolic during the day, Vitamin A at bedtime.
- Always apply a high quality broad-spectrum UVB/UVA sunscreen.

Caution

- External use only. Avoid direct contact with the eyes.
- Keep out of reach of small children.
- If irritation lasts for more than two days discontinue use for a few days and then try again using a smaller amount.
- Keep away from direct sunlight. Do not freeze or store near very cold areas.
